

FitnessCheck™

A targeted cleaning and maintenance program
designed for Health Clubs, Fitness Centers & Gyms

GYMS ARENAS GYMS

FitnessCheck™

Maintaining a clean and healthy fitness facility increases member satisfaction, ensures renewals, and attracts new members. FitnessCheck addresses your unique needs by integrating knowledge, resources and products into a dedicated program that delivers powerful results.

RECOGNIZING YOUR CRITICAL BUSINESS NEEDS

Studies show that routine cleaning and disinfection, as part of a managed cleaning program, can significantly reduce the risk of harmful pathogens being spread through frequently touched surfaces.

LABOR READINESS The daily cleaning of a fitness facility is the responsibility of all employees, all day, every day, all year long:

- Poor and inconsistent cleaning efforts
- Potential damage to gym equipment
- Establishing and managing a quality process

83%
of members associate cleanliness
with club satisfaction

MEMBER SATISFACTION Member satisfaction dictates the success of your business. Creating goodwill is the surest way to maintain and grow your memberships and your business:

- 82% of gym members believe dirty health clubs or gyms are more likely to have germs
- 90% of members that perceive the gym to be clean are likely to renew their membership
- Members that perceive a gym as clean, purchase 70% more non-dues services than those that perceive it as dirty

COST CONTAINMENT In addition to managing labor, memberships, and your facility amenities, managing your bottom line requires optimizing your cleaning and maintenance expenses, without sacrificing quality:

- Lack of training contributing to custodial inefficiencies
- Costs associated with safety and liability issues
- Waste associated with inaccurately proportioned cleaning products

CleanCheck® Training System

Spartan's CleanCheck Training System will ensure that your employees are properly trained on the products and procedures necessary to accomplish the required cleaning tasks. The benefits of CleanCheck can be profound across your entire operation.

CleanCheck provides these bi-lingual tools:

- Web- or DVD-based video tutorials
- Web- or paper-based testing
- Training manuals
- Compliance documentation and tracking
- On-the-job cards
- Employee recognition certificates

ADDRESSING YOUR CRITICAL BUSINESS NEEDS

LABOR READINESS

- Documented training system helps establish quality controls for daily cleanliness
- Instills professionalism within your workforce to promote employee pride in their workmanship
- Minimize safety issues and potential for damage to gym equipment

MEMBER SATISFACTION

- Minimizes member complaints about your cleanliness and appearance
- Establishes standard operating procedures for consistent, quality cleaning results
- A clean facility promotes renewals, new memberships and more non-dues services

COST CONTAINMENT

- Delivers a more cost-effective approach to managing your staff and cleaning procedures
- Trained workers are more productive at their jobs and more cost efficient at completing their tasks
- Proper training helps reduce the costs associated with safety and liability

CompuClean® Custodial Management Software

When you care, it shows. CompuClean and the CompuClean Mobile App provide an integrated reporting system and a variety of modules to improve the management, documentation and quality of your cleaning operations.

CompuClean is the ultimate custodial management tool for:

- Quality inspections
- Inventory control
- Completing corrective actions
- Managing periodic maintenance

ADDRESSING YOUR CRITICAL BUSINESS NEEDS

LABOR READINESS

- Quality inspections and on-the-job feedback help maximize the performance of your employees
- Real-time communications facilitate quick completion of custodial tasks
- Recognize and reward exceptional service by employees

MEMBER SATISFACTION

- Maintain better control over facility cleanliness, health, and safety
- Quickly identify and manage corrective actions to resolve member concerns
- Easily manage periodic maintenance to improve the appearance and cleanliness of your facility

COST CONTAINMENT

- Evaluate processes and staffing to optimize labor and control costs
- Schedule preventative maintenance to minimize the long-term costs of repairs
- Improve the returns from your cleaning investment

Clean on the Go® PDS (Portable Dispensing Unit)

It's important that your cleaning chemicals are properly diluted. Over proportioned chemicals raise costs. Under-proportioned chemicals affect performance. Plus, improper dilution can present costly safety issues for employees and members.

Clean on the Go® PDS is packed with impressive features:

- Designed for use with Spartan's Clean on the Go® and Green Solutions® 2-Liter concentrates
- Easy to operate
- Accurate dispensing
- Portable and reusable
- For use on-site and on-demand

ADDRESSING YOUR CRITICAL BUSINESS NEEDS

LABOR READINESS

- Staff can more easily and safely dispense chemical
- Pre-labeled quarts provide product identification and safety information while in use
- On-demand chemical dispensing ensures the product is available to complete each job thoroughly

MEMBER SATISFACTION

- Properly diluted chemicals deliver the best performance and results
- Ensures safer use of chemicals to counter any adverse effects on members

COST CONTAINMENT

- Decreases your chemical costs by enabling the use of concentrates
- Eliminates the cost associated with installing and maintaining a wall-mounted dispenser
- Customizable dilution rates decreases the number of chemical SKUs needed
